## PMX INLET FOR MINI VOLUME SAMPLER MiniVS-C

**X = 10 µm – 2,5 µm**

The fractionating PMX inlet of the mini volume sampler MiniVS-C is a single-jet impactor. Downstream the screwable jet is a deep impaction well. **PM10** and **PM2,5** impactor jets for the flow rate of **200 l/h** are available.

The inlet can be equipped with **filter holders** for filters of **25 mm** or **47/50 mm** diameter. When using the **small filter holder** the device can be operated for **e.g. approximately 1 week**. With the **large filter holder** it can be operated for **e.g. approximately 1 month**.

The filters of the filter holders designed for filters with 47 mm respectively 50 mm diameter are in special cassettes.

**PMX inlet with filter holder for filters with 47mm/50mm diameter**

**PMX inlet with filter holder for filters with 25 mm diameter**
